PROFESSIONAL SUMMARY

Results-driven web developer dedicated to building and optimizing user-focused websites for organizations with various business objectives. Technically proficient in JavaScript and a critical thinker with a calm and focused demeanor. Beyond a healthy obsession with software development, I consider myself as an effective communicator, attentive to details, logical thinker, a team player, and a transformational leader.

WORK HISTORY

Front End Web Developer - 12/2021 - 06/2022
Moovit Digital Ventures, Lagos, Nigeria

- Improved operations through consistent hard work and dedication.
- Planned and developed interfaces that simplified overall management and offered ease of use.
- Updated old code bases to modern development standards, improving functionality.
- Built and styled new modern-friendly websites, transitioning legacy presentation to simultaneous easy-to-use versions.
- Discussed site and app requirements with clients to produce actionable development plans.

Front End Web Developer - Contract, 08/2021 - 12/2021
Dash Language School, Lagos, Nigeria

- Defined web project scopes that met organizational initiatives and demand.
- Tested site compatibility across multiple browsers and devices, uncovering and debugging issues and addressing inconsistencies.
- Wrote clean React.Js code, integrating design, extensions, and third-party libraries according to web development plans.
- Built a scalable product with a support payment system that led to 30% increase in company's revenue.
- Delivered responsive web development projects in Agile framework.

Front End Web Developer , 11/2020 - 05/2021
SIDE HUSTLE NIGERIA, LAGOS, NIGERIA

- Was Team Lead of Junior developers to build interactive and user-friendly pages that scaled up to accommodate over 200 users.
- Tested site compatibility across multiple browsers and devices, uncovering and debugging issues and addressing inconsistencies.
- Identified and resolved website performance flags to optimize speed.
- Assembled and addressed technical and design requirements, integrating user-facing and front-end elements to maintain web presence effectiveness.
